Portfolio: tinyurl.com/shreyagokani

- Accomplished Full Stack Developer and team leader with a strong record in creating complex applications for global clients, including a mobile app for the national bank of India (Android/iOS), serving over 70 million users worldwide.
- 4+ years of experience in developing and troubleshooting web/mobile applications, integrating APIs and designing responsive and user-friendly interfaces. Expertise in Angular, React, Next.js, JavaScript, TypeScript, MongoDB, Node.js, NgRx and Agile methodology.
- Winner of department-wide 'Best Project Management Skills' award (2020) at Infosys.

SKILLS

Languages: JavaScript, TypeScript, Python, C#, Swift
Front-End: React.js, Next.js, Angular, AngularJS, HTML, CSS, Bootstrap, Redux, NgRx, AG Grid
Back-End: Node.js, RESTful API, MongoDB, SQL, Express.js, .NET
Tools: VS Code, GitHub, MongoDB Compass, Postman, Vercel, Heroku, Android Studio

EXPERIENCE

Full Stack Developer   2022 – Present
Self-Employed | Calgary, Canada

Calgary-based Real Estate Client:
- Successfully deployed a cutting-edge real estate management website and data entry portal for a real-estate company in Calgary to manage their properties across Alberta worth $40 million.
- Engineered a robust backend infrastructure, ensuring seamless data management and optimal performance, ultimately boosting productivity and user engagement.

Vancouver-based Yacht Company:
- Spearheaded a UI transformation, creating adaptable modules for data management and authentication enriched with captivating animations. This led to a substantial surge in user engagement and satisfaction.
- Redesigned the RFP Bidding system with advanced features, enabling file attachments, draft saving, and support for multiple file uploads, allowing RFP Managers, Consultants, and Proponents to exchange bid information effectively.

Technology Used: JavaScript, React.js, HTML/CSS, Tailwind UI, Tailwind CSS, Next.js, Node.js, Express.js, MongoDB, SharePoint API

Project Coordinator   2022 – Present
Capstone Technology Canada | Calgary, Canada
- Managing a team of 7 engineers and leading software delivery for 5 clients across multiple verticals.
- Automated the performance reporting process for multiple clients using Power BI and PARCView, reducing reporting lag by 30%.

Software Engineer   2018 – 2022
Infosys | Mumbai, India
- Led a team of 10 developers to create the State Bank of India (SBI) mobile app, reaching over 70 million users globally in 2 years.
- Engaged in all stages of the software development life cycle, customized the UI, and integrated APIs for 20 different countries, including the UK, Canada, US, and Bahrain.
- Designed reusable modules for notifications used in all countries and integrated a third-party SDK for remote cheque deposits, saving 5 million user hours a month.
- Developed TFSA/GIC banking modules for the Canadian app, collaborated with McKinsey, and provided walkthroughs to clients.
- Recognized with the department-wide 'Best Project Management Skills' award; the app received the 'Innovation' award among all Indian banks for its superior user experience.

Technology Used: Node.js, AngularJS, React.js, Android Studio, Swift, CSS Media Queries, JavaScript, HTML, jQuery, MongoDB, SQL
